OURS TRAYS

DID YOU KNOW THAT? ?

The inventor of the wooden baking mould

Panibois is a French family-owned company located in the north of the Sologne region, specializing in the manufacture of a wide range of wooden baking trays and other wooden containers.

Our wood comes from sustainably managed forests: for every tree cut down, a new one is planted.

Our products are resistant to both freezing (down to -40°C) and oven baking (up to 240°C for 45 minutes).

Versatile in use, they are suitable for both cooking and presentation. Wood ensures even cooking, enhancing flavor quality and preservation.
